

[Content Views Pro Nulled 118](#)

A screenshot of the Content Views Pro settings interface. At the top is a red header bar. Below it is a yellow panel containing a list of checkboxes: "Show Title" (checked), "Show Thumbnail" (checked), "Show Custom Fields" (checked), "Show Content" (unchecked), and "Show Meta Fields (Taxonomy, Author, Date, Comment)" (unchecked). A small crosshair icon is positioned over the "Show Title" checkbox. Below the list is the text "Drag & drop to change display order of fields." Below the yellow panel are three blue bars with white text: "Title +", "Thumbnail +", and "Custom Fields". Below these is a "Select Fields" label next to a text input field. Below the input field is the text "Select any custom fields. Support ACF, Pods..."
